27 November 2007

Message

I am pleased to learn that Dhaka International University is going to celebrate its First Convocation on November 27, 2007. On the happy occasion of the Convocation, I extend my heartiest felicitations to all the graduates, faculties, guardians and the university authority as a whole.

Convocation is a milestone of any University for attaining its desired achievement. It provides the opportunity to confer degrees upon the graduates as well as to facilitate the authority to renew pledge to make further betterment of the University. In the pace of Globalization, the quality of our higher education must be ensured to face the challenges of the competitive world. I believe our Universities, both private and public, would adopt appropriate measures with respect to international standard in imparting quality education to its students for the well-being of the Nation.

I wish the First Convocation of Dhaka International University a great success.

Allah Hafez, Bangladesh Zindabad.

Message

It gives me immense pleasure to learn that Dhaka International University is going to hold its First Convocation on November 27, 2007. On this memorable occasion, I congratulate all the graduating students, faculty members, guardians and the university community on their achievements.

I am also happy to know that in keeping with the wishes of its distinguished founder, late Professor Dr. A.B.M Mafizul Islam Patwari, the university tries to provide opportunities for the students coming from middle class families. But the standard of education that it imparts must be raised. If the nation is to survive in a highly competitive world, there is no alternative to quality of higher education.

I wish the Convocation a great success and believe that the graduating students will make significant contributions in the national and international arena.

Message

The First Convocation of Dhaka International University on November 27, 2007 has given me immense pleasure as the Convocation of a university signifies a new identity, a new recognition and a new dimension. I am really grateful to the Honorable Chancellor Professor Dr. Iajuddin Ahmed who has created this ample opportunity by scheduling the date for this Convocation. But on the eve of this long cherished convocation, a name haunts my mind and he is nobody but my loving father, a renowned humanist, educationist & the founder of this university Late Professor Dr. A.B.M. Mafizul Islam Patwari whose unprecedented sacrifice in the field of education is undoubtedly a milestone in the arena of education in our country. Actually, this university has come to this landmark and dignified position because of his uncompromising personality and achievement in imparting quality education at the university level. We are going to pledge from this convocation that our journey of ensuring quality education will continue age after age.

May this first Convocation live long as a blessing for us.

Dr. S.K. Patwari

Message

I am profoundly pleased to be able to celebrate the Convocation of Dhaka International University. This is the first Convocation of the University and this is also the first Convocation during my tenure as the Vice-Chancellor. On this auspicious occasion, I extend my facilitation to graduating students, teachers, guardians and all concerned of the university community. At the same time, I would like to recall, with due respect, the memory of the founder of the University, late lamented Alhaj Professor Dr. A.B.M Mafizul Islam Patwari who was a renowned Professor of Law of Dhaka University with a number of scholarly publications to his credit.

The graduating students will be particularly happy to see the fulfillment of their long-cherished dream. The degrees to be conferred on them will, no doubt, help them to build up their career. But these also signify an added responsibility on their part as the enlightened citizens of the country. They will have to prove their worth in a highly competitive situation. Their Alma Mater will be honoured only if they succeed in their profession and practical life.

My best wishes to graduating students and for the success of the Convocation.

Message

I am particularly delighted to hear that Dhaka International University is going to celebrate its First Convocation. This is an event of momentous significance. It marks the fulfilment of a long cherished desire of the graduating students, teachers, guardians and concerned of the university community.

I have been concerned with the task of building up of the Science Faculty of Dhaka International University. I strongly believe that higher education in Science, Technology and Business Studies are the demands of our time. The University is already active in this field.

Dhaka International University and indeed, all universities should now pay more attention to ensure quality education rather than expansion of faculties. I expect that the university authorities will make all-out efforts to achieve the goal by removing all irregularities, vitalizing its current programmers and creating necessary enthusiasm among the students, teachers and all concerned.

I wholeheartedly wish for the success of the Convocation.

Message

Dhaka International University began its journey on the 7th April, 1995 in a very modest way in a modest building at Jhikatola.

When the University applied for recognition from the Bangladesh Bar Council, the Bar Council formed a committee and as the Chairman of the committee I visited the University and being satisfied with its curriculum, teaching standard, library facilities, and general administration made a recommendation in its favor and it received the required recognition from the Bangladesh Bar Council. I had the occasion also to take some classes in the University in its modest building at Jhikatola,

From 1995 the University prospered and today it is housed in several most modern buildings in a posh area of this city.

Buildings do not impart education and if the prosperity of the University is confined to prosperous housing facilities and provision for high technological tools of teaching alone, I must say I am disappointed. The prosperity of a University has to be judged from the quality of education imparted. So, I shall hope that the teachers of the University will mainly devote to improve the quality of education and the students will take full advantage of it and prepare themselves for serving the society and thereby bring succour to millions of hapless of this country.

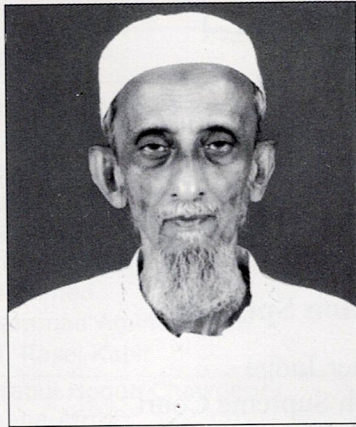

Only one word for the students of this University-do not think that as soon as you get your degrees and certificates today in this convocation, you have learnt everything and your education is complete. After you get even the highest degree from your University you only cross the threshold of education and your real education only begins and will continue throughout your whole life and even then your feeling will be like that of the great scientist, Sir Issac Newton, who had felt that he had only picked up pebbles on the sea-shore of education.

I would end this message with a happy note.

I wish all success to the University, all the teachers and the students.

Message

I am very glad that the First Convocation of Dhaka International University is going to be held on November 27, 2007. I believe that this Convocation will be a milestone in the history of the University. I have all the blessings for the graduating students and I think they will go a long path with the help of the certificates they will achieve.

I wish the Convocation a grand success.

Chronological Development of Dhaka International University

Preface:

Dhaka International University is one of the leading, familiar and note-worthy private universities in Bangladesh. It started its journey from 1994 but ultimately it was established in 1995. It has been going on as a non-profitable institution having strict academic discipline. Late Alhaj Professor Dr. A.B.M. Mofizul Islam Patwari founded this university with great inspiration, enthusiasm and philanthropism. His mission was to spread out education among the middle class people to broaden the range of knowledge and to build up skilled man-power to enrich the nation.

Brief History:

DIU starts its journey in 1995 with the Faculty of Business Studies, Faculty of Science and Agricultural Sciences, Faculty of Law and Faculty of Arts and Social Sciences. The curriculums of Dhaka International University have been approved by the University Grants Commission (UGC) of Bangladesh. Since the establishment of this university, many graduating students have proved their competence and capability in different job sectors in home and abroad, even in the examinations of Public Service Commission of Bangladesh:

Mission of DIU:

The mission of DIU is age-worthy, pragmatic and job-oriented. The development of human resources through appropriate training, guidance and teaching is the main motto. Besides, DIU believes in knowledge-based practicality which creates a unique opportunity for those who are job-seekers.

Future Plan of Dhaka International University:

Dhaka International University is struggling to make it one of the reputed and leading universities in Bangladesh. No doubt, it is on the way of full-fledged success. It has a plan to introduce academic scholarship named **Founder's Memorial Scholarship** for the needy and meritorious students. The future expansion plan of DIU is to build a permanent campus on own land at Amin Bazar within short time. On the other hand, DIU has already purchased a four storied building at Banani with 5.25 Katha land which is known as the **City Campus** of Dhaka International University. It has also another plan to build a multistoried building in this premise. Professor Dr. Patwari, the founder of Dhaka International University had a long cherished dream to establish an Agricultural Campus and accordingly he established an Agricultural Campus at Moniram of the district of Gaibandha. The authority of **Dhaka International University** is trying his utmost to fulfil the dream of the founder to make the Agricultural Campus a successful one.

Conclusion:

Today's position of **Dhaka International University** is, no doubt, the result of the historical journey of twelve years through a zigzag path. We really feel proud for the present strength of the university because at present it is both nationally and internationally well known. Every graduating student is playing the role of an Ambassador in different professional fields. We want blessings and moral support from all corners of the society to make this university a unique field of achieving the highest possible knowledge for expanding higher education.
